Dear Dr. Sitompul

Thank you for reviewing the revised manuscript TPRS-2013-IJPR-1055.R3 entitled "Tactical production planning in a hybrid Make-to-Stock–Make-to-Order environment under supply, process and demand uncertainties: A robust optimization model" for the International Journal of Production Research.

I greatly appreciate the voluntary contribution that each reviewer gives to the Journal. I hope that we may continue to seek your assistance with the refereeing process for IJPR, and hope also to receive your own research papers that are appropriate to our aims and scope.

Sincerely,
Editor-in-Chief, International Journal of Production Research

Dear Dr. Sitompul:

Ref: Manuscript ID TPRS-2013-IJPR-1055.R3 entitled "Tactical production planning in a hybrid Make-to-Stock–Make-to-Order environment under supply, process and demand uncertainties: A robust optimization model"

Following your comments on the above referenced paper the corresponding author has now submitted a revised version. I will be most grateful if you would please let me have your comments on the revision. The author's responses are appended at the end of this message. Please let me know as soon as possible if you are willing to undertake the review. Please note that we would really appreciate it if you do conduct a second review on this paper, as it should make the review process quicker and more coherent. It is very difficult and time consuming to find new reviewers for a revised/resubmitted paper, and therefore your input would be greatly appreciated.

You may click the appropriate link below to automatically register your reply with our online manuscript submission and review system, or e-mail me with your reply.

We normally allocate three weeks in which to complete the review starting from the date you accept the invitation. We do, however, understand the demands of academic life and are sympathetic to any reasonable requests for extensions.

Once you accept my invitation to review this manuscript, you will be notified via e-mail about how to access ScholarOne Manuscripts, our online manuscript submission and review system. You will then have access to the manuscript, author responses and reviewer instructions in your Reviewer Centre.

Here at the International Journal of Production Research we operate a single blind peer review process. This means that contact between reviewers and authors is not encouraged nor supported by Taylor & Francis, so as to protect the peer review integrity of the journal. If you feel you are in breach of this policy, or have any questions, then please do not hesitate to contact us at ijpr@tandf.co.uk.

I realize that our expert reviewers greatly contribute to the high standards of the Journal, and I thank you for your present and future participation.

Sincerely,
Alexandre Dolgui

MANUSCRIPT DETAILS

TITLE: Tactical production planning in a hybrid Make-to-Stock–Make-to-Order environment under supply, process and demand uncertainties: A robust optimization model

AUTHORS: Khakdaman, Masoud; Wong, Kuan Yew; Zohoori, Bahareh; Tiwari, Manoj; Merkert, Rico

RESPONSES: Reviewer 1:

1. Thank you for your responses to our remarks. Please make sure that you are correctly writing references (last name, year), for example: El-Houssaine, A., Carles, S., & Najib, M. N. (2010) ==> Aghezzaf, E.-H., Sitompul, C., and Najid, N.M. (2010).

> We have corrected this issue. We have also carefully checked all the references, one-by-one, to ensure that the correct last names are used in the text and reference list. The last names of the authors follow exactly the ones which were printed in their respective published papers. Please kindly refer to the manuscript for the revisions made.

> All the details in the list of references have been thoroughly checked and they are written according to the format used by IJPR.

> The English of the manuscript has been carefully checked and improved by i) Dr Rico Merkert (co-author) who is currently based in Australia, and ii) A professional English proof-reader who has been educated in the United Kingdom.

Thank you.

Many thanks
